Strong and compact Electronic Coffee Grinder on-demand with 58mm flat burrs. Its aluminum and steel body and the powerful engine make it a reliable and indestructible work companion. The on-demand system of MST-58P E, grinds only the coffee dose required, in order to preserve unchanged all the organoleptic qualities contained in a roasted coffee bean. Thanks to the continuous micrometric adjustment system, MST-58P E ensures unmatched homogeneity of the grind.
